

Video Assignment (5%)

Create a video to introduce yourself to your classmates. Talk about yourself and / or something that is important to you. This will be an excellent way for me to get to know you better, and for you to get to learn more about other students in our class.

Please note that you do not have to be in front of the camera; we don't need to see you. But you will be narrating and speaking in the video. Also, you must have a developed video component; for example, showing only one photo would not be sufficient as a visual component.

Length: 2-5 minutes. You don't need to speak non-stop; there can certainly be pauses (silence). But if your video is 2 min. long and there are noticeable pauses, the video may be considered too short.

Identification: At the beginning or at the end of the video, say your name and your program.

Evaluation criteria: You will not be evaluated on pronunciation, grammar, etc.
→ If you make the effort to produce an appropriate video, most of the video will simply be about completing this assignment.

Submission: In the "forum par équipe" of your Video Team on LÉA. Either as a file or as a link, for example to youtube (you control the privacy settings on youtube)
